

When you submit DNA on your calves, they are first recorded on the Association's data base. Please provide as much information on the calves as you can so that our records will be complete. This is necessary, even for the terminal calves, in order to collect data on the Akaushi sires. Especially important are birth weights, calving ease & weaning weights.

Date: _____ **Total Samples:** _____ **Member/Breeder:** _____ **Number:** _____

No	Animal's EID Number	Animal ID (Ear Tag)	Sex M/F	D.O.B. or Date Range	% Akaushi	Dam Reg. Number Or ID if Reg. is not available	Dam's Breed Up to 4 Digits	***** Sire Reg. Number Or ID if Reg. is not available *****	Optional Info
